LATE BAROQUE TOWNS OF THE VAL DI NOTO (SOUTH-EASTERN SICILY)

The Late Baroque Towns of the Val di Noto in Sicily are eight cities that were rebuilt after an earthquake in 1693. They have beautiful Baroque buildings with rich decorations, churches, palaces, and elegant streets. They're famous because they show how cities were planned and art was created back then. An example? Noto, which is also called the 'Capital of Baroque'.

THE FRONT DOORS OF THE BAROQUE TOWNS IN VAL DI NOTO ARE DECORATED WITH FUNNY FACES. DRAW A FUNNY FACE ON THE DOOR TOO.
