## SACRI MONTI OF PIEDMONT AND LOMBARDY

The Sacri Monti of Piedmont and Lombardy are chapels and pilgrimage churches built between the 16th and 17th centuries on hillsides. They tell Bible stories with statues and paintings. They're set in nature, connecting art with landscape. They're UNESCO World Heritage sites because they show how faith and art come together to create special places.

LOOK AT THIS SCENE FULL OF FIGURES. WHAT MIGHT THEY BE SAYING?
