GENOA: LE STRADE NUOVE AND THE SYSTEM OF THE PALAZZI DEI ROLLI

Genoa holds a special place in history for its “Palazzi dei Rolli” and “Strade Nuove”. These streets, built in past centuries, were lined with beautiful palaces where very rich and important people lived. The Rolli Palaces were so special that Genoa chose them to host important government guests. Today they are a UNESCO Heritage site, showing how art and history come together in the city.
