## ANCIENT AND PRIMEVAL BEECH FORESTS OF THE CARPATHIANS AND OTHER REGIONS OF EUROPE

*The ancient and primeval beech forests are special woods, very old and full of life! They are found in many European countries, including Italy. Here grow very tall beech trees that help the environment by producing oxygen and housing many animals. They are like a natural treasure to protect for the future!*

WHAT ANIMALS DO YOU THINK MIGHT LIVE IN THIS BEAUTIFUL BEECH TREE? DRAW THEM!
